

1.INTRODUCTION

1.1 PROJECT OVERVIEW

My project is a webpage of hotel it include menu,book table,place order and pre booking and other things with good user interface

1.2 Purpose

It is use to book tables or place order online easily and also know the specials of that day and also contact the staff easily

2.LITERATURE SURVEY

2.1 Existing problem

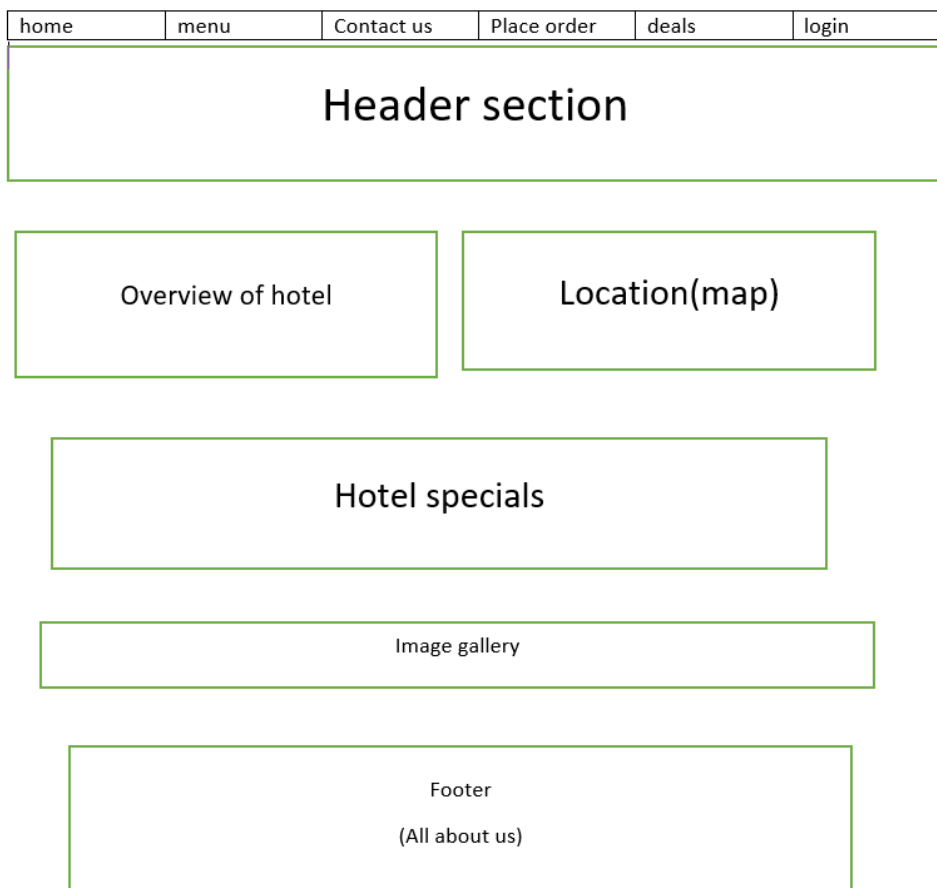

The problem is like the restaurents filled now a days a lot .so people have to wait for long time outside.

2.2 Proposed solution

The solution is, pre booking help the people to enjoy the food and not to worry about the tables

3.THEORITICAL ANALYSIS

3.1 Block diagram

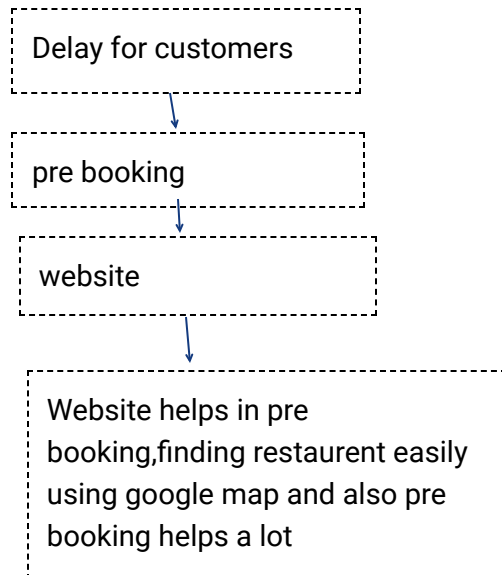

3.2 Hardware and Software designing

I used wordpress to design the website ,wordpress is used to create beautiful websites easily and also godaddy to host my website

4 EXPERIMENTAL INVESTIGATIONS

Searched many websites and worked on some reviews

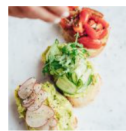

5.FLOW CHART

6.RESULT

Our all new magical tastier dishes

All are welcome
opens at:
Mon-Wed
8:00 am to 11 pm

All are welcome to enjoy the delicious food
